Boyle: Pursuant to the state public records law, M.G.L., ch. 66, sec. 10; c.4, sec. 7: c.26 and any other applicable state or federal laws or regulations, BU requests access to the following: - all records related to earnings paid to civilian and sworn personnel assigned to any community service office in the city. I request this information from Jan. 1, 2019 to present. We request this information in electronic format. If any fields or records are deleted or redacted, please provide a detailed explanation of the exemption under the laws your office relies on to justify the deletion or redaction. Also please provide all documentation necessary to load and analyze this data, including the record layout for each table, field descriptions and electronic copies of the codes. As you are aware, the state Public Records Law does not allow a blanket exemption for public records but instead requires the custodian of the records to justify withholding any or all parts of a record by the application of narrowly- defined exemptions. When exempt information is intertwined with non-exempt information, the non-exempt portions are subject to disclosure once the exempt portions are deleted. If any or all or any part of this request is denied, please cite the specific statutory exemption(s) which you believe justifies your refusal to release the information and inform me of your agency's administrative appeals procedures available to BU under the statute(s). The law requires your agency provide a response to this request within 10 days by either denying the request or making an offer to provide the requested materials. I request an expedited response to this request and a waiver of all fees, as allowed for by the state statute. The public's right to access to records maintained by public agencies such as yours may be enforced by court order of mandamus. The records I request are very specific and narrowly defined and memorialize the kind of routine business for which the public has an interest. If you have any questions regarding this request, please don't hesitate to contact me at 617-686- 7038. Thank you in advance for your help. [SPR21/0573]

<a href="#">B000229-021021</a>	2/10/2021	9/3/2021	OPC	Curtis Gilbert	American Public Media	I am researching the hiring and training of officers at police departments around the country, and I am writing to request records from your department documenting the following: A. Demographic records on police academy applicants, recruits and hires 1. Data on the number of applicants to the police academy each year (2010-2020) broken down by demographic group, (e.g., number of white male applicants in 2011, number of white female applicants in 2012, number of black male applicants, etc.) 2. Data on the number of recruits admitted to the academy each year (2010-2020) broken down by demographic group. 3. Data on the number of graduates from the police academy each year (2010-2020) broken down by demographic group. 4. Data on the number of officers completing their field training each year (2010-2020) broken down by demographic group. 5. Overall number of sworn officers in the department (current) broken down by demographic group. 6. Overall number of sworn officers (current) holding the rank of sergeant or higher, broken down by demographic group. Ideally, I would like records dating back to 2010 as outlined above. However, if older records are not readily available, I would be open to narrowing the request to whatever range of dates is readily available. Records responsive to this section may be contained in the database the department (or municipality) uses to track human resources-related information. Courts have generally held that databases and the information within them are public records and that querying a database does not constitute the creation of a new record. Center for Investigative Reporting v. U.S. Dep't. of Justice, Case No. 18-17356, 2020 WL 7064638 (9th Cir. 2020). B. Records related to certain police academy procedures In addition to the statistical records described in section A, I would separately like to request a few records related to the policies and discipline practices employed by the academy. 1. The most recent edition of the police academy manual, handbook or similar document(s) laying out the rules or expectations for academy recruits 2. Records, including videos and written documentation, documenting to the use of physical discipline (e.g. requiring recruits to run laps, do sit-ups, push-ups, planks or other exercises as punishment for infractions) dated 2018-present 3. Records, including videos, documenting uniform or firearm inspection drills dated 2018-present If you have any questions about the records I am requesting, please don't hesitate to contact me. If some responsive records are more easily located than others, I would ask that you provide them on a rolling production schedule, rather than waiting for all the records to be assembled. Thank you for your time and attention.

I am Ms. Fernandez's attorney and I am attaching a signed release from her. I received the initial report from Michaela Grenham, the Liaison Agent at the BPD's Public Service Unit. She instructed me to request the photos and any amendments through this portal. After a previous request for these photos was denied (reference no. Please note that while the public records law protects documents involving domestic violence, it also states that "all such reports shall be accessible at all reasonable times, upon written request, to: (i) the victim, the victim's attorney, others specifically authorized by the victim to obtain such information...." As I am [REDACTED] s attorney and requesting it by attaching a signed release, we should be able to access the photos and any addendum to the original report.</p>

Like Commissioner White, we requested details of any commendation or awards Long has received during his career and details of all internal affairs investigations of Long. See below for the specifics of the request. We're seeking all available background info on Acting Commissioner Long. We have this bio on BPDnews from 2015, which gives details of his assignments and education. Payroll records show that Long lives in Canton. We'd like to confirm that's still the case. We are also seeking details of any commendation or awards Long has received during his career and details of all internal affairs investigations of Long. In the short term, we would like a basic description of the allegations, investigation, and outcome. Long Term we would also like copies of the files, for which we will submit a record request. Our records show two cases: -Case 18804 from 2004: Improper use of force investigation for an incident 2/4/2004 that involved 5 other officers. The records we have show the investigation was opened and closed on the same day, 10/21/2004. We don't know the outcome of the investigation or the basic facts. -Case IAD2013-0204: Respectful treatment case against Long and one other officer that was initiated 5/16/2013. The records we have show the allegation was unfounded. We don't have a basic description of the underlying facts. [SPR21-1091] [internal affairs IAD] [Globe Litigation] [The Long Request]

This was the original request: City Public Records Request about a month ago R000035-010821 To Whom It May Concern: This office is requesting copies of certified payrolls submitted by the plumbing contractor, Harold Brothers Mechanical, for any and all plumbing work performed at the Boston Arts Academy. This request is made under the Freedom of Information Act which requires a response within 10 days. As you know, the Act permits you to reduce or waive fees when the release of this information is considered as "primarily - benefiting the public". I believe that this fits that category and therefore ask that all fees be waived. If there are any fees levied on this request for searching or copying the records, please inform me personally before the request is honored. If all or part of this request is denied, please cite the specific exemption(s) which would justify your refusal to release this information, and then please provide the procedures available to us for an appeal as required by law. The original request was on January 8, 2021. On January 21, 2021 our office received excel spreadsheets as a response from the City Boston with some information but not copies of the certified payrolls. On January 25, 2021 this office responded to the City regarding the spreadsheets received and once again asked for copies of the certified payrolls originally requested on January 8, 2021. The City did not properly respond to our original request nor did they respond to our follow up email informing them that the spread sheets were not acceptable. On February 26, 2021 our office resubmitted a second request to the City for copies of the certified payrolls from Harold Bros. for work performed on the Boston Arts Academy. Once again the City responded with the same excel spread sheets and not copies of the certified payrolls. The City of Boston has either ignored, or is refusing to comply with this public records request. The Labor Management Office of Local 12 has submitted many requests to the City of Boston for copies of certified payrolls on many projects and has never had a problem. In the current matter regarding the Boston Arts Academy, the City appears to have refused to comply with providing public records that are submitted to them pursuant to M.G.L. ch149, s27b. There should be no confusion regarding the records this office is seeking. Our office is asking the Supervisor of Records to assist us and order the City of Boston to comply with our request for public records, the public records being copies of certified payrolls from Harold Bros. for work performed at the Boston Arts Academy. Should the City not have the records in their possession then we are asking your office to direct the City of Boston to either acquire, or direct this contractor to provide said records forthwith as soon as possible. Thank you for your assistance on this matter and please stay safe.

<a href="#">R000412-030521</a>	3/5/2021	4/15/2021	Public Schools	Sarah Grandfield		Emails and Telephone Records of Maria Vieira, Assignment Specialist/Exam Schools & AWC for the month of February, 2020. Ms. Vieira has admitted to making calls during the month of February to certain BPS students who did not apply to the exam schools by the stated deadline, to let them know that they could still apply. These calls were selective in nature -- not all Boston Public School students who met the eligibility requirements for the exam schools but did not apply received a phone call or any other notification of the deadline "extension." The original January deadline remained posted on the BPS website. It is therefore imperative that the public have access to internal emails between Ms. Vieira and staff regarding the reasons for these calls, and records of who was called, in order to determine whether these calls were discriminatory in nature (i.e., Ms. Vieira was attempting to engineer the applicant pool to achieve desired demographical results). Ms. Vieira may have made some of these phone calls on her personal telephone, and therefore those records should be deemed part of this request.

<a href="#">B000393-030921</a>	3/9/2021	9/10/2021	OPC	Sam Sam		<p>To Whom It May Concern: Pursuant to the Massachusetts Public Records Law, I hereby request the following records: Data stored in the inPursuit Record Management System pertaining to use of force incidents covering the dates 2012 to 2021. Specifically, I request the following fields: -Date/Time occurred -type of charge -criminal charge files -subject name - subject sex -subject race -subject age -subject date of birth - subject address - level of resistance (and the subfeilds) - subject armed with (and the subfeilds) - witness race - witness sex - officer rank - officer sex - officer age - officer duty status - officer level - address of incident - officer employee id - officer badge - resist arrest - weapons/physical force (and the subfeilds) We are also requesting any data dictionaries, code tables, or other types of manuals that define, in plain English, the meaning of the column headers in the data, and any codes, acronyms, abbreviations or other shorthand terms used for entries in the data. We are asking for an export of raw data, to the extent maintained in the departments databases. We do not expect the department to manually input or alter any information into the data for the purposes of fulfilling this request. Redactions: If a record contains both exempt and non-exempt information, the non-exempt information should still be provided: Because we are requesting data, each distinct type of information is separated into its own field (i.e. column), making it easy to redact exempt information en masse. Entitlement to Records as Data: We request these records in a machine-readable database or spreadsheet format – such as SQL, CSV, XML, JSON, Excel, or Access files – and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. We realize the information may be contained in multiple tables. We are not asking the department to join tables together for us, or to conduct any type of analysis on the data. We are merely asking for the department to export the raw data, as it exists in the department's inPursuit database, which should minimize the amount of programming necessary to fulfill our request. Additionally we are in possession of the inPursuit records management manual. As such, we are acutely aware of how and what data is stored by the Boston PD. All fields requested are part of this system, if the custodian has any trouble finding the record we are happy to assist by citing the section of the manual which outlines the procedure for data exportation. We can do the joining on our own, so long as each table contains the unique identifiers and primary keys necessary to join the tables together, and so long as we are provided the necessary documentation to ensure that we are accurately joining and analyzing the data. We are comfortable working with very large databases in many standard data formats. Upon request, we would be happy to provide a USB thumb drive or external hard drive to facilitate the release of these records. Other Provisions: If there are any fees for searching or copying these records, please inform me if the cost will exceed \$50. However, since this information is being sought for public research purposes, we request that any fees be waived because disclosure of the responsive records is squarely in the public interest and will make a significant contribution to the public's understanding of critical issues related to policing. If you deny any portion of this request, please cite the specific statute that you feel justifies each exemption, The requested documents will be made available to the general public, and this request is not being made for commercial purposes. G. L. Chapter 66, Section 10). I am requesting that I be provided a copy of the following records: -For the time period Jan. 1, 2018 to present, records related to Use of Force Reports filed by police officers. -Field names may include, but not be limited to: Use of Force Report number or case number, Use of Force Report type or incident type, received date, name of officer, title, badge or ID number, finding, finding date, action taken or outcome. Specifically, I am seeking a database of Use of Force Reports and their corresponding findings. This could be in an Excel spreadsheet, CSV or other similar format. The Somerville Police Department recently produced a response to a similar request as an Excel file, which I am attaching with this request as an example. If these records are available electronically, in their native form (an Excel spreadsheet, database, computer readable PDF, etc.) I would prefer them in that way. If you remove or redact certain fields or information, please provide the corresponding reason in the Massachusetts Public Records Law. I understand that some records will become available sooner than others. I would like to be provided with each individual part of this request as it becomes available. I recognize that you may charge reasonable costs for copies, as well as for personnel time needed to comply with this request. If you expect costs to exceed \$10.00, please provide a detailed fee estimate. The Public Records Law requires you to provide me with a written response within 10 business days. If you cannot comply with my request, you are statutorily required to provide an explanation in writing. That includes citing a specific exemption explaining why any redactions are made. Sincerely, Walter Wuthmann wuthmann@bu.edu [SPR21/1782]</p>

I would like to have a copy of the data underlying the calculations shown in the farthest-right column of that table (headed "Seats under Simulations / Average # Invitations"). Specifically, I would like to see records showing the total number of students *within each ZIP Code* who were in the *qualified* applicant pool (i.e., students who satisfied the new policy's GPA/MCAS criteria). To be clear, I am *not* requesting any document that could be used to identify any individual applicant - I'm only interested in data aggregated by ZIP Code, and only with respect to those applicants who would have qualified for admission under the new policy. <a href="#">B000437-031821</a>	3/15/2021	3/19/2021	OPC	Friedrich Lu		For the name o Boston police officer who first said his badge number was 2270. When I repeated the number the second time (to memorize the number, as I had no pen at hand but in a pocket), the officer said "2299." I am looking for a white male around 50 in a Boston police patrol car around 3:10 pm, yesterday (Sunday, Mar 14, 2021). The time was Eastern Saving Time (not Eastern Standard Time), as clock changed in the early hours of that Sunday. Supposedly he is from District D-4, as the location was Private Alley 546 (in Back Bay). Around 3:10pm, I lifted the lid of a trash barrel there (Alley), put in a piece of trash (about 1 inch long) inside a trash bag (in the barrel) and closed it. The officer slowly (that was his pace, not in a hurry for something) drove by, and said "You should not go through the trash." I said I was putting a piece of trash in, not going through the trash. Not to be believed, I asked, "Is it a crime?" The officer: "Yes, it is trespass." I: "Come on. You can not assert right off another." Officer: "Yes, I can. Go check the law." He then said people called in to complain that I went through their trash. I asked him for the name of the owner. Officer could not answer; he just made up an excuse to hammer me, to accuse me of a crime (trespass) that is false as a matter of law.

<a href="#">B000432-031721</a>	3/17/2021	5/5/2021	OPC	daniel gibson	N/A	I was backing into my driveway on Summer St., when a vehicle coming from Gordon Avenue sped around the curve in Summer Street, almost hitting me. I accelerated in reverse to avoid what would have been a major accident, and in the process scratched the driver's side of my tenant's car with only minor damage. My insurance company, Commerce, sited me for an at fault accident and assessed a major surcharge against my otherwise clean driving record. I appealed, however, the hearing officer from the Division of Insurance found against me and upheld the surcharge. I have filed a further appeal to the Suffolk Superior Court. I am seeking evidence supporting my theory that speeding vehicles are a real problem on Summer Street because the hearing officer did not believe that it was necessary for me to back quickly into my driveway to avoid being hit by a speeding vehicle approaching my backing vehicle from the right.

To be clear, I am requesting information that specifically constitutes "statistical tabulations" and was necessarily "made or received" by employees of BPS, the agency that produced the memorandum. If for some reason it isn't clear what I am requesting, I would be happy to have a conversation to describe it in detail. Thanks for your continued attention to this!

<a href="#">B000469-032321</a>	3/23/2021	9/7/2021	OPC	Leanne Gast	University of New Hampshire	Good Afternoon, I am a research assistant at the University of New Hampshire Crimes Against Children Research Center. We are in the process of completing a national study on hate crime investigations, funded by the National Institute of Justice. We are obtaining the number of investigations law enforcement agencies investigated from January 1, 2018 to December 31, 2018, where there was an indicator of possible hate or bias motivation by an offender against an individual's or a group's race, religion, ethnic/national origin, gender, age, disability, or sexual orientation. According to the Massachusetts Crime database, the Boston Police conducted over 140 hate crime investigations in 2018. Would you be able to confirm that this number is accurate? Also, we have been following up with the officers who investigated these cases to gather additional information regarding the type of bias, the crime committed, whether there was an arrest, and de-identifying information about the victim and suspect. We understand, however, that this would be overly burdensome to agencies with a large number of cases, so for those agencies we are requesting redacted police reports to gather this information. Given the amount of cases your agency had in 2018, we would take a random sample of about 25 cases. Would it be possible to get a list of all the incident numbers so we can get a random sample and then request police reports for those cases? Thank you for your help with the study, Leanne Gast
