It is unclear if the case was actively pursued and to date the missing panel has never been found. I am trying to determine if a police report was ever filed, so that I can include it in our records and provide this information to the FBI Art Theft Division for further investigation.

It was an arrest for underage drinking and the report says I have the detective a credit card with the address on it. Its impossible. I need the report because I'll be brought to court for ab\$9,300 debt I have no idea about. I'd love to see where I gave that address 20 years ago because its untrue. I have the original paperwork from Dorchester court with my address then. 10 sydney street. Someone is not being honest but I'm telling the truth. I thought the police would help me but he just blamed me. Thank you for your time.

B002804-100622	10/6/2022	10/6/2022	BPD Media Relations	Pete Wilson		Hello John, Can I request the incident report from 20 Outlook Road from 10/3? Thank you, Pete Good morning John, We are looking to track down some info about a tip sent to us by a woman who says she is the mom of an 8th grader who was attacked by 5 others at the Young Achievers School. She says the attack happened on October 3. She shared the attached video with us and a screen grab of a social media account where she says these videos are being posted. The woman says she has complained about these students since the beginning of the year and that the principal, and a school police officer met to report the ongoing bullying from the same students, but nothing happened. Has BPD been notified about this by either the mom or the school? Is BPD investigating this alleged incident? Thanks for any guidance, Pete Boston 25

R002885-100622	10/6/2022	10/12/2022	BAT/POLICE REPORTS	Elaine Sahori		When I arrived here in 2016 in the United States, I had been here for 25 days, I went to the UPS in the city where I lived in Rockford Illinois, and there a man lightly patted my ass, and then it was long forward and started to touch, I didn't know any English, but I reported it through the translator, and the people there just told me I'm sorry, I was saddened for months to have gone through this and nothing was done for me. Soon after in the year 2020 I was assaulted by a woman at the Boston airport, I was assaulted with a slap in the face by a woman, she assaulted me with horrible words and who made several obscene gestures, I called security, and security called airport police, and even so, she continued to attack me, there were witnesses, the police asked for filming from the cameras, and the camera that was on my side does not record the sides, and there was no 360 degree filming, it only records the front exit gate, and I was on the side of the camera, like 1 meter, and nothing was done for me, I had no protection, and they didn't protect me at that moment, since then I suffer from it, a lot of anxiety, and saddened, humiliated, of hands tied, feeling of inferiority, I feel that everything that happens to me I will not pay attention, it was very embarrassing, I would like to have my Police Report that was made that night, nothing was delivered to me, not even a paper of mine occurrence, of the record that the licia did, i need that document. I need help, I need a psychologist for emotional support, it hurts me a lot until today, it hurts me a lot, I'm sick and it's been 1 year.

B002847-101222	10/12/2022	10/17/2022	OPC	Sarah Walther		Dear Public Records Officer: We request raw data—in a machine-readable database or spreadsheet format such as SQL, CSV, XML, JSON, Excel, or Access files—on search and seizure warrants executed by the Boston Police Department. The time period of the data should cover the earliest date available in the City of Boston and/or BPD databases through the date on which this request is fulfilled. The data should include all disclosable fields, including but not limited to fields containing the following types of information: - Date and time when the search warrant was executed - Location, coordinate, or address where the warrant was executed - Outcomes related to the warrant (e.g. whether an arrest was made, whether force was used, whether dogs were deployed, whether anything was found) - Indication of whether included warrants are "no knock," to the extent that your office keeps this information. In addition, we are requesting all identifiers, primary keys, and/or metadata that distinguish between unique records and individuals, and that link the database tables together, including but not limited to Incident IDs, Person IDs, and any other relevant fields you are aware of. We are also requesting any data dictionaries, code tables, or other types of manuals that define, in plain English, the meaning of the column headers in the data, and any codes, acronyms, abbreviations or other shorthand terms used for entries in the data. We are asking for an export of raw data, to the extent maintained in your databases. We do not expect you to manually input or alter any information into the data for the purposes of fulfilling this request. Redactions: If a record contains both exempt and non-exempt information, the non-exempt information should still be provided. Because we are requesting data, each distinct type of information is separated into its own field (i.e. column), making it quick to redact exempt information en masse. Entitlement to Records as Data: We request these records in a machine-readable database or spreadsheet format—such as SQL, CSV, XML, JSON, Excel, or Access files—and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. We realize the information may be contained in multiple tables. We are not asking the City/BPD to join tables together for us, or to conduct any type of analysis on the data. We are merely asking for your office to export the raw data, as it exists in BPD's database, which should minimize the amount of programming necessary to fulfill our request. We can do the joining on our own, so long as each table contains the unique identifiers and primary keys necessary to join the tables together, and so long as we are provided the necessary documentation to ensure that we are accurately joining and analyzing the data. We are comfortable working with very large databases in many standard data formats. Upon request, we would be happy to provide a USB thumb drive or external hard drive to facilitate the release of these records. Other Provisions: If there are any fees for searching or copying these records, please inform me if the cost will exceed \$50. However, since this information is being sought for public research purposes, we request that any fees be waived because disclosure of the responsive records is squarely in the public interest and will make a significant contribution to the public's understanding of critical issues related to policing. Pursuant to Massachusetts General Law Chapter 66, Section 10(a), the Department is required to respond within 10 business days of receiving this request. If you expect a significant delay in responding to this request, please contact me with information about when I might e

On those specific dates and times I was on my way home from work traveling west in the right lane on Boyleston Street. Just after going through the lights on Boyleston on Park Drive, a brown 2003 Chevrolet Silverado traveling west on the right lane apparently did not see me and attempted to switch lanes striking my grey Audi A6. The man pulled over as was extremely apologetic and we exchanged papers. He had asked to pay out of pocket as not go through insurance. I agreed and we went on with our days. 2 days later I received a phone call from his insurance company stating that he said that I switched into his lane striking his vehicle. The video from the camera on Boyleston St. and Ipswich Street on the date and times stated would keep me from paying a deductible and having surcharges added to my insurance for something I'm not at fault at and keeping the other driver accountable for his actions and preventing another insurance fraud from taking place.

As I was reading through the Minutes of the Landmark Commission's meeting dated April 28, 2015, some copies of documents were referred to with the words (see file). Could you provide me with all documents connected to the minutes of this meeting which were placed in the "file." I reviewed the documents I received, but could not find them. I am particularly interested in Mr. Racheotes statement. In the minutes, one of the Commission members, John Freeman, makes the statement, "What guests don't know is that the Commission has been struggling with this for several years, there have been numerous public hearings and many heated discussions." Were these other public hearings and heated discussions that John Freeman mentions in connection to the Prouty Garden held by the Landmark Commission? I just want to double check because, to my knowledge, October 28, 2015 was the only known public hearing before the Landmark Commission in regard to the Prouty Garden. If there were others, I'd like copies of those records as well. Let me know what he is referring to. Thank you very much for your assistance. Best Wishes, Elizabeth A. Richter [REDACTED]

(Generally these are vendor or accounts payable checks.) 2. All unclaimed bonds and bond proceeds, including the dates, names, last addresses, and amounts due the bondholders. B002954-102522	10/25/2022	10/25/2022	BPD Media Relations	Matt Fortin	NBC 10 Boston	Over the weekend, you provided us with some information about the number of shooting victims under the age of 18 in the city of Boston this year and last year. So through Thursday in 2022, we've got 16 shooting victims who were under 18 at the time of the shooting accounting for 15 individual shooting incidents. I need to ask them to get rid of a security light causing light pollution that permeates my apartment even when the blinds are down. It has kept me up at night after night. The clinical brightness of the light is a nuisance. It would be great to get their contact information to talk to them. Hopefully they would be willing to replace the security light to a dimmer, orange, not "soft white" color, or to rid of entirely.

B003013-103022	10/30/2022		OPC	Nancy Frantel		Per the Massachusetts Public Record Law I am requesting the following: From and including January 1, 2022 to September 30, 2022, a LIST of Incident reports (not the actual report) of assaults ON police officers. I live in Chesterfield County, VA, and after researching the list of reports where police officers were assaulted (obtained through FOIA -- here it lists per line [as example]: Event number [report #], Incident Type, Unit, Address, Disposition 1 Assault-Police, and Disposition 2 Offense Report, Number of Police Officers Assaulted), I became increasingly concerned for the safety of our police officers. I am requesting a similar type list from the Boston, Massachusetts Police Department, including number of police assaulted and category (simple and/or aggravated). As a result of my concern looking at the data, I worked with my Christian Church staff and we hosted a "Prayer drive-thru" in the church parking lot to offer prayer for protection and show appreciation to the officers. The first event was in June. In September, I spoke at a training event for the International Conference of Police Chaplains [ICPC]. The topics included encouraging other departments and communities to consider hosting a similar event and include prayer for Police Chaplains. Thank you for your attention to my request. Please call me if you have questions.

For purposes of this request, we intend "present" to mean the day that you pull responsive data to release to us, not the day this request is being filed. I believe these records are held by the Boston Police Department. If not, please direct me to the appropriate agency. We would request this information be provided to us in an electronic data file such as plain delimited text, or other file that can be imported into a database (such as a .CSV file, .XLS file, .XLSX file, etc.) This is a spreadsheet-type format. The responsive data of incidents should be a file or files on an incident-level with many fields, reported for 2019-2022. Please find the attached pdf document which outlines data fields for NIBRS, a national program to standardize crime statistic collection that the Boston Police Department participates in. Please make sure to include all NIBRS data fields and tables outlined in the PDF, along with all fields that can help us identify the specific agency that submitted the data. In the event you have certain "state statutes or offense codes", separate from federal statues or offense codes, please provide both fields, and the table to map between the two (for translation of state offenses into federal NIBRS data). Importantly, we are not requesting your agency create any new records here - we are explicitly asking only for an electronic copy of the data your agency already has received and is in possession of. This includes all incidents, whether or not closed or cleared. But, importantly, as we are only requesting NIBRS fields, we are not requesting personally identifiable information. We are making this request as a media organization. Scripps is a major national media group (www.scripps.com) with presence in local television, a national television network (www.newsy.com) and in podcasts. The responsive data will be used to produce a story in the public interest and we would request a public interest waiver of any fees. If you decline to waive fees, please let us know in advance what the charge for these records will be. Should you have any questions on this matter, please do not hesitate to reach out. I'm happy to hop on the phone if there is any confusion with the request, or to aid in any way. All best, Carrie 202-657-8876

B003057-110322	11/3/2022		BPD Media Relations	Sarah Ryley	The Boston Globe	Dear Supervisor of Records, I am witting to appeal the Boston Police Department's ("the Department") failure to respond to my request for records pertaining to licensed firearms manufacturers and dealers. On Oct. 4, 2022, I sent my public records request to MediaRelations@pd.boston.gov, which is the email reporters are told to use for public records requests. The records were due Oct. 18. I received no acknowledgement or response, so I followed up on Oct. 19. I still have not received any response from the agency. I believe the Department has responsive records in its possession. According to published data from the Firearms Records Bureau, the Department has received at least 14 applications for licenses to sell firearms since 2017, and has issued at least two. According to ATF data, at least the following individuals and entities have held federal licenses to sell firearms in the Department's jurisdiction since 2017: Boston Gun & Rifle Association, LLC, 1483 Dorchester Avenue Adam Phillip Samansky, One Financial Center In anticipation of any exemptions the Department may claim, I've attached recent rulings by the Supervisor of Records pertaining to the same request that I made to other agencies, concerning commonly-cited exemptions such as CORI, G. L. c. 66, § 10B, G. L. c. 4, § 7(26)(a), and G. L. c. 4, § 7(26)(j). I respectfully ask that you order the Department to provide me a response, in a manner consistent with your relevant orders, the Public Records Law, and its regulations, within ten business days. Thank you, Sarah Ryley Boston Globe, Reporter Cell: 347-324-8697 Dear Records Access Officer: Under the Massachusetts Public Records Law, I am requesting the following records from the Boston Police Department pertaining to licensed firearms businesses (including individuals licensed as such), covering the time period of Jan. 1, 2017 through the date that my records are retrieved: 1) Applications for licenses to sell, rent, or lease firearms, rifles, shotguns, and machines guns; to perform gunsmithing services; or to sell ammunition; including any records during the course of the application process, such as correspondences and attachments. 2) Inspections, and any records provided to your agency as a result of inspections. 3) Referrals and complaints from any person or agency on potential violations of federal or state laws, and records of any action taken. 4) Investigations 5) Records of enforcement actions by your agency, or any other agency that are in your possession. If my request would result in a large volume of records, please send me a breakdown of the records, record types and formats, to assist me in potentially narrowing my request. I would like to receive these records in their original, machine-readable digital file format whenever possible, which I am entitled to under 950 CMR 32.07(d). ("The records access officer must provide electronic records in native form when possible.") For example, If the records kept as Word docs, PDFs, or spreadsheets, please send them to me in that format, instead of printouts or scans of printouts. As a member of the media reporting on matters in the public interest, I am requesting a fee waiver and an expediting of my request. Since I am requesting records in their original digital format whenever possible, I expect the costs, if any, to be limited. G. L. c. 66, § 10(a) requires that you fulfill my request within 10 business days. If you are unable to furnish my records within 10 business days, you are required to send a written response within that timeframe that includes the information outlined in G. L. c. 66, § 10(b)(i-ix). If you deny my request in part or in full, G. L. c. 66, § 10(a-b) requires that you send a written denial that details the specific basis for withholding the material, cites the

I request the police report for the incident at about 8:00 p.m. Saturday where a 35-year-old South Boston man was shooting off flares at Rowe's Wharf that resulted in a police officer injury. Is this police officer ok? Did the hypodermic needle have any type of drug in it? Second, is the Christopher Long arrested in Haverhill the same police officer who suffered injuries in an attack by homeless man Patrick Lowry in December 2016? I'm just confused because city pay records show only one Christopher Long and he had only \$1,642.03 in regular pay that year and injury pay was already his main income by that time and had been since 2013. B003381-112922	11/28/2022	11/29/2022	BPD Media Relations	Tim Nazzaro	Boston 25	Good evening everyone, Hope you all had a good holiday. We're working on a story about The Franklin Apartment complex (11 E Newton St) in the South End. Residents have complained to us about a lack of elevator service for 4 months now and claim that elderly residents have had to call 911 to get off the upper floors. I was wondering if you could send me a list of all the 911 calls from that address since July regarding residents needing to evacuate/need to get off their floor in the building? The story is still being researched so a deadline isn't imminent, but if you could send me something by Thursday/Friday it would be greatly appreciated. Thank you, Tim Nazzaro Boston 25 Content Producer [REDACTED]

R003375-112922	11/29/2022		Schools - Legal	Stacey Minchello		<p>Email from Stacey Minchello to Elliot School on August 25, 2002 Robbie Mallett, Grade 5, 10 years old, has been denied school bus transportation for the upcoming school year. This happened last year and our appeal took many months with many frustrations. I realize that transportation is not managed by Eliot. However, Robbie's denial is based on the fact that Eliot is not a school in his home base which was redistricted in his fourth year of schooling at Eliot. Last year, there was a waiver form or some sort of exemption of home base communication that was sent to BPS transportation by Mr. Rubino. I'm reaching out to you requesting a copy of any communications that the Eliot School has sent to the Boston Public Schools Department of Transportation in an effort to allow Robbie bus service out of his home base. Taking on BPS transportation last year was overwhelming, mega time consuming with several phone calls, emails, and long times of waiting on hold. We were even told by BPS transportation that the only solution we had (the day before school started) was to transfer Robbie out of Eliot and enroll in a home based school. I plan on filing a formal appeal with BPS transportation. Let's hope it goes well and is timely. I will accept any insight you have in this matter and appreciate your help. Best, Stacey Minchello [REDACTED] East 1st Street South Boston, MA 02127 [REDACTED] cell Email received on Aug 25th Hi Stacey, Thank you so much for reaching out. We appreciate the challenging situation you are in. I have added our Senior Director of Operations, Tressa Janti to this email. She is going to meet with our BSP transportation contact and get back to you. -- Aliza Day Moschella (Kiki) Email sent on August 31st asking for an update. Response email: Hi Stacey, I hope you are doing well! We had a meeting with the Transportation Department and, unfortunately, they're not going to be able to update bus assignments until two to three weeks after the first day of school. In the meantime, you can submit a waiver here. Additional details about submitting transportation requests can be found here. Feel free to reach out with any other questions! Best, Tressa August 31st reply: Tressa, Thank you for your response. I find it bizarre that a student is expected to be without transportation for two to three weeks. I submitted ticket #58493 last week when we received the denial letter. Is a ticket considered a waiver? Are we supposed to submit a form that's called a waiver? Mr. RUBINO submitted a waiver last year. We never physically saw this waiver. His waiver took many months; I believe it was Feb or March. And then, Robbie only received return home service; which is also bizarre. How can a child be eligible to get home but not get to school in the first place? I will be pressing our elected officials for quicker action on this matter. Also, there are other Southie Eliot students that have bus service and they live further out of district. Thank you. Stacey Questions were not answered. Public records requests: Request # 1 On September 2, 2022, I requested the following information from the BPS transportation department regarding Robert Nicholas Mallet ID#39650 after receiving a transportation denial. 1. Please forward me his records that detail this administrative override for one year only with an explanation of why it's not two years to complete his eligibility status. 2. Please send me BPS' re-districting policy that states existing students who were entitled to transportation will lose access to services. 3. Please explain why a bus still comes to P st and Broadway going to the Eliot but our child cannot get on it. 4. Please inform me of your name and title at BPS as your one liner denial doesn't provide me this information. I did not receive</p>

B003399-113022	11/30/2022	11/30/2022	BPD Media Relations	Michael Sullivan		Hello! Hoping you can help us out. We're speaking with Brett Nelson, a resident at 50 Causeway Street near TD Gardens who's having a problem with crews of bucket drummers outside his window. He says they make noise over 90 decibels until 1 AM (violating noise ordinances in several different ways) and when he's confronted them they've threatened and assaulted him. I believe BPD responded to one of these assaults -- any chance we could get a copy of that police report? That should be attached to the 50 Causeway Street address; there may also be 911 calls made from 101 Causeway Street. More broadly, can you confirm that BPD is aware of this issue and looking into it? We'd love to know if you've taken calls from any other residents in the area. R003500-121322	12/5/2022	1/11/2023	Parks	Colman Herman	Freelance Reporter	This is a public records request. The accounting ledger of the Parks and Recreation Department of the City of Boston leaves blank the "description" column. So for example let's say that there is an entry for \$2,000, there literally is no indication what it was for. In that regard, on October 6, 2022, Elizabeth Sullivan, a press officer with the Parks and Recreation Department, wrote the following to me. As you are aware, we provided a general ledger report for the last 5 years for the Fund for Parks & Recreation in Boston. This ledger is a report generated by our financial software (BAIS Financials) consisting of approximately 80,000 transactions including deposits, payments, and various other costs related to the management of the Fund, like fees paid for the management of the investments, etc. For most transactions, aside from some of those administrative costs, no description is automatically populated in the BAIS Financials report. We can, however, provide information regarding individual payments, invoices, or receipts, as those can be looked up manually. This would be the same type of information and methodology used for the regular audits of the Fund, conducted by a third party auditing firm. In those cases, we are emailed a list of transactions and asked to provide backup. [emphasis added] We are happy to provide information and answer questions in the spirit of transparency, but an automatically generated report including descriptions does not exist. Similarly, on October 28, 2022, Ryan Woods, the commissioner of the Parks and Recreation Department, wrote the following to me. The ledger requested is pulled off of the city's BAIS financials which does not have the column filled in with any information as it is not captured by the system. So we do not have a responsive record. What I mentioned to you as you quoted above was that we can manually pull anything specific requested one at a time. In the timeline requested there are 80,000 transactions. If there are specific invoices they can be pulled. To pull all 80,000 one at a time will take months and require pulling staff off of their duties. When outside auditors come in to do reviews they ask for particular ones at random and they are pulled. That can be done. [emphasis added] Accordingly, please provide me with all the entries for donations made to the Fund for Parks and Recreation for the period January 1, 2020 to the present. This includes, but is not limited to, the identity of the donor, the amount, and the date. [SPR22/2948]

R003419-120522	12/5/2022	12/6/2022	Inspectional Services	Kathleen Kolb		I represent the Board of Trustees at Dockside Place. Our building #33 Sleeper St shares a common wall with 51 Sleeper St. I am requesting copies of the plans, permits, and any inspection details for the development at 51 Sleeper St which is being converted to laboratory space. We would like to ease the concerns of our residents over safety and noise issues. We understand that the building has been permitted for laboratory usage, but would like to know for what Biosafety Levels has it been approved, and if recombinant DNA materials are being used. In any event, can we get a layout of what is on the other side of the shared wall, and details about the insulation and barriers between our buildings? BPDA's Life Science Action Agenda published in November indicates that there will be adoption of new design guidelines and amendments, and that the public's concern over safety will be addressed. However, how will this be applied to projects that have already been approved? Will there be additional inspections? Also, is the development complete or will there be further construction?

ROBERT BUCKLEY, 43, is charged with assault and battery on a person over 60 causing serious bodily injury. Judge James Coffey ordered Buckley held on \$2,000 bail, and also ordered him to stay away from the victim and stay away from J.J. Donovan's Tavern, the site of the attack. Buckley will return to court February 16 for a probable cause hearing. Assistant District Attorney Michael Tomasini said the victim was with relatives for a family celebration when he was attacked outside of the restaurant and thrown to the ground by a man wearing a white long-sleeve shirt and blue jeans with red underwear protruding from the rear waistband. Family members and Faneuil Hall security officers told police the man, who was accompanied by a second man, fled toward Congress Street. Officers soon located a man matching the description at Atlantic Avenue and High Street and conducted an on-site ID with a family witness. The witness told police that the man, Buckley, was "100 percent" the person who threw the victim to the ground. The second man was not involved in the altercation and was not charged. The victim was transported to Massachusetts General Hospital with a serious neck injury that could have life-long ramifications. He also suffered a severe gash to his forehead that will require plastic surgery. "It's tragic that this innocent man is out celebrating with his family and suddenly ends up on the ground with injuries that could impact the rest of his life, and tragic that it all happened in front of his family. Our victim witness advocates are in contact with the victim and his family and will stay by their side throughout the course of the prosecution," Hayden said.</p>

L. Chapter 66, Section 10). I am requesting that I be provided a copy of the following records: - Any police reports related to requests for service at 8 Helen St., 10 Helen St., and 12 Helen St., all located in Dorchester, since Jan. 1 2020. This includes any police reports related to any shootings, homicides, or assaults at those addresses during that time frame. I recognize that you may charge reasonable costs for copies, as well as for personnel time needed to comply with this request. If you expect costs to exceed \$10.00, please provide a detailed fee estimate. I do not believe the records are exempt under MGL Chapter 66, Section 10. However, if you believe the records contain exempt material, the law requires that you redact only that information and release the rest of the documents. The public records law requires you to provide me with a written response within 10 business days. If you cannot comply with my request, you are statutorily required to provide an explanation in writing. If you have questions, my cell is [REDACTED]. Thank you for your time and consideration. Respectfully, Danny McDonald

R003476-120922	12/9/2022	1/5/2023	OPC	Lisa Steele	Steele & Associates	I am assisting a Connecticut attorney with this public records request. Attorney Aaron Romano represents Mr. Gerjuan Rainer Tyus in a Connecticut state habeas case (roughly similar to a Massachusetts Rule 30 Motion for New Trial). Mr. Tyus was convicted in New London, Connecticut, of a 2006 murder in that city. See State v. Tyus, 342 Conn. 784 (2022); see also State v. Tyus, 184 Conn App. 669 (2018). There were 9mm and .380 casings found the New London crime scene. Attorney Romano received a copy of a Fax dated 12/10/09 from the Firearms Analysis Unit to "S/A Dan Prather" which included a memo from Detective Lydon, a Boston PD Firearms Examiner. The second paragraph of that memo says that "At some time during the first week of December, 2009, I was contacted by an ADA from New London, Connecticut who requested that the entire case from 2007 (FAU #07-020) be completed. I was assigned this case and proceeded to work on it." The memo goes on to discuss the comparison between the 9mm casings submitted with the Massachusetts incident with a test casing from the recovered handgun, and a match was found. I am trying to obtain information about the communications between Boston and New London Police or the Connecticut State's Attorney in New London, or between Boston and the ATF (which seems also to have been involved in the New London case) about whether Boston ever received or examined evidence from the New London case, or compared it to the Boston case, or lent your evidence to the ATF or to Connecticut for them to compare. If you did look at the New London evidence, or lent your evidence to Connecticut, I am looking for any chain of custody documents, notes, reports, photographs, or any other evidence that might pertain to a comparison of the Boston and New London evidence.

B003542-121422	12/14/2022		OPC	Angelique Forsberg	The Rights Company	Hello, I am completing research on a fictional feature film set in Boston. In the script, they feature a number of fictional police officers as well as one badge number. I was hoping to get information on the names of current Boston police officers in an effort to avoid any coincidental mentions of real officers in the city/or an active badge number. I have reached out to Media Relations at BPD regarding this request but have not heard back.

We're chasing down a tip we received about a Boston City Council member to determine its validity, and I wanted to see if I could get copies of several incident reports. There's word spreading that Julia Mejia was pulled over by an officer in Mattapan this past weekend for a suspected OUI. According to our sources the vehicle was towed. Can you provide reports from the following "towed vehicle" incidents I found in B-3 for this month? 222095323 222093554 222093335 222093381 If one of these incidents is connected to the council member I'd like to get the body camera footage, but I know that would probably require an official records request. As with all tips, this could be a wild goose chase, but we want to cover our bases. If I need to submit an official open records request to get the incident reports please let me know. [Julia Mejia]

R003627-122322	12/23/2022	1/5/2023	Public Records	Victoria Watlington	Watlington Engineering, PLLC	<p>I am a PhD student and local elected official in Charlotte, NC. I'm writing to request data in support of my dissertation research (below). I am requesting to have the data from each city by January 15, 2023. Please let me know if you have any questions or feedback regarding the clarity of the request. Background To give you some context, here are the current versions of my research questions and data. Research Questions: 1. How does ideological alignment of state, local, and federal elected officials impact state and federal budget allocation (and, therefore) economic mobility across various city-state power dynamics? 2. How do racial demographics impact policy instrument selection and expenditures (and, therefore) economic mobility in large US cities? • How does African American percent of population impact policy instrument selection and budget allocation (and, therefore) economic mobility in large US cities? • How does segregation impact policy instrument selection and budget allocation (and, therefore) economic mobility in large US cities? • How does local African American affluence impact policy instrument selection and budget allocation (and, therefore) economic mobility in large US cities? (Are we lifting as we climb?) 3. How can quantitative decision support modeling be employed to improve the economic mobility budget allocation process? Hypotheses: 1. Child-focused policies that are better funded increase mobility, assuming full utilization 2. Home-rule cities are more likely to allocate and spend more on economic mobility programs. 3. When Democrat-led cities, states, and federal legislatures are governing simultaneously, economic mobility spending increases. (Will mobility?) 4. As segregation decreases, economic mobility program budget allocation and spending increases. Does mobility? 5. Cities in which African Americans have higher median incomes spend more on economic mobility programs. The goal is to then create a model that can forecast best policy portfolio selection for a local government based on the above control variables (authority, ideology, segregation, demographics, region). Data Request I'm looking for budget revenue sources (divided by federal, state, and local), allocation, AND expenditure data, by year, for FY2010-2020 for the top 50 cities in the US (as of 2020). Specifically, I'm looking for budget data for programs that fall within the economic mobility-related categories below. I understand that, for some cities/counties, many of these programs sit within the County budget. If that is the case, I would appreciate corresponding information from the County as well. For your reference, I am providing a work-in-progress example from the City of Charlotte (attached), as well as an alternative formatting example from Mecklenburg County (if possible, I would appreciate a similar format for ease of data consolidation).
