Thank you for the response!

I see all the records here are PDF files, including records that look like they were exported from a spreadsheet.

Were these records provided to the original requesters as PDF files, or were the original requesters provided spreadsheets, and the records have been converted to PDF in response to my request?

Hello,
I'm just checking in to see the status of this request.

Would it be possible to fulfill this request by setting the listed requests as "public" in GovQA? I believe this would make the requests and responses available in the GovQA "Public Records Request Archive."

Thank you,
Nathan
